Title of the Practice: Tree Plantation Celebration

Objectives of the practice:

When you plant a tree, you don't just plant a sapling but hope. We have learned it the hard way that trees are extremely important for our survival. We first resorted to deforestation and made space for more buildings on earth. Later, when we saw the environment getting seriously affected, we were introduced to something called "afforestation", a simple process of planting more trees for a better future

The Context

Thus, we have our global Tree Plantation Day which is celebrated on 21st March all over the world. The aim behind observing the said day is to make people aware of the importance of planting trees and help them realize the same. A common practice during tree plantation day is to plant saplings in order to invest in the future

The Practice:

"Cleanliness is next to Godliness." To contribute in swachh bharat abhiyan activity & undertake cleanliness drive. It is everybody's responsibility and one should keep themselves and their surroundings clean and hygienic. It also brings good and positive thoughts in the mind which slows down the occurrence of diseases. It is the mantra of Mahatma Gandhiji, Father of Nation. He demonstrated, propagated and insisted for individual and community cleanliness throughout his life. Following his footprints, Swachh bharat Mission campaign achieved encouraging results. This vision will be translated into action by bringing in community participation for clean toilets and integrated waste management to make our place open defecation free, zero waste, dust free, plastic free and green. This year, NSS Cell of RERFGOI in association with IQAC cell of RERF organized this event on 22nd March, 2023.. Students have encouraged community people to join in Swachhta activity. They have participated in shramdan activity and shown their willingness and interest to keep surrounding clean.

Evidence of Success:

The Swachh Bharat Abhiyan is the most significant cleanliness campaign by the Government of India. Its responsibility of the entire citizens to keep their surrounding clean community people were encouraged to maintain their surrounding clean. Thus the students of our college have initiated one steps towards-cleanliness". Around 50 students participated in this event. NSS Cell of RERFGOI in association with IQAC cell of RERF organized this event on 22nd March, 2023.. Students have encouraged community people to join in Swachhta Activity. They have participated in shramdan activity and shown their willingness and interest to keep surrounding clean.

Problems encountered and resources required:

- A major hurdle in the way is the scarcity of water. Public toilets in metropolitan cities have been reported to have no water supply at all.
- Non-availability of water in many parts of rural India makes people avoid a household or a public toilet and opt for open defecation instead.

Problems encountered:

1. Dust and dirt. Various kinds of trash. In places as huge as stadiums and airports, it's a must to have rubbish bins in every corner.
2. Toilets.
3. Thousands of seats.
4. Floors.

Resources required:

Swachh Bharat Abhiyan is a five year long cleanliness campaign launched by the Government of India on 2nd October 2014. The campaign was aimed for making the streets, roads and offices clean from filth and garbage. One of the main objectives of the drive is to make India Open Defecation Free (ODF). The campaign also targets raising public awareness about cleanliness through rigorous media campaigns and to institute door to door garbage collection in rural/urban household and ensuring its safe disposal

Make the most of the day by working on things that don't get done often, like cleaning the chairs in the auditorium or dusting the tops of lockers. If you like, you could ask for permission to plant some flowers around campus, like in a flower bed near the school's entrance.
