About IIT Kharagpur

Kharagpur - a dusty town tucked away in the eastern corner of India, famous until 1950 as home to the longest railway platform in the world - became the nursery where the seed of the IIT system was planted in 1951. IIT Kharagpur started its journey in the old Hijli Detention Camp in Eastern India, where some of the country's great freedom fighters toiled and sacrificed their lives for India's independence. Spurred by the success of IIT Kharagpur, four younger IITs sprouted around the country in the two following decades, and from these five came thousands of IITians, the brand ambassadors of modern India. It was the success of this one institution at Kharagpur that wrote India's technological odyssey.

The Institute takes pride in its relentless effort to provide the best platform for both education as well as research in the areas of science and technology, infrastructure designs, entrepreneurship, law, management, and medical science and technology. IITKGP is not just the place to study technology, it is the place where students are taught to dream about the future of technology and beam across disciplines, making differences enough to change the world.

Program Features/ Structure

Classroom lectures – 50%
Hands on – 50%

Program Fee

(a) Nil for AICTE-QIP sponsored faculty members. However, for reserving a seat, a DD of Rs. 2,000/- (drawn in favor of "CEP-STC, IIT Kharagpur" payable at Kharagpur) along with the application form should be sent to the course coordinator. It will be returned in hand to the participants attending the course. Shortlisted applicants will be intimated by email. TA for the sponsored participants is limited to AC-3 tier train fare by shortest route. Travel by **car/flight** cannot be reimbursed.

(b) Scientists / Technologists / Engineers from industry or govt. institutions: INR 20,000 + GST 18%.
(c) Registered full time students: INR 10,000 + GST 18% (fill up the form and send by email)

Program Schedule and Venue

5 days, 1 – 5 July 2019
(9:00 AM – 6 PM)

E&ECE dept.,
IIT Kharagpur.

Accommodation

Free of cost food and shared accommodation for AICTE-QIP sponsored participants and students at the campus Guesthouses. Limited 30 seats are available which will be distributed according to date of registration. For others, the same will be provided on chargeable basis as per rule.

Last day of Registration

24 June 2019

Who will benefit (Eligibility)

Minimum B.E. / B. Tech./ M. E. / M. Tech. degree in Electronics and Communication or equivalent.

Design of Microwave and Millimeter-Wave Filters

5 days, 1 – 5 July 2019

Course coordinator

Dr. Mrinal Kanti Mandal

Engineering,
I.I.T. Kharagpur, 721302.
E-mail: mkmandal@ece.iitkgp.ac.in
Ph no.: 03222 283550 (O), 9734092899 (m)

Overview/ Objectives

Filter is one of the most important components in any microwave and millimeter wave system. It is used to obtain a precise frequency response. Design of filter usually starts with network synthesis. Then, a systematic procedure is followed for the final theoretical design from a given specification. However, the knowledge of network synthesis is not the only tool required for the final device. It provides a prototype network which must be transformed into a realizable form. This transformation involves rigorous full wave electromagnetic analysis for the final physical dimensions. Thus, a filter designer also has to have a reasonable knowledge of electromagnetic characteristics of the device.

The course will cover from basic filter theories to advanced filter design. Design steps starting from a given specification of a filter to implementation of the final device in quasi-TEM line, wave guides and dielectric guides will be discussed. Both theory and laboratory classes will be conducted.

What you will learn

Program Content

Theory:

- Basic concepts and theories of filter.
- Guiding structures.
- Resonators.
- Cross-coupling, intra- and inter-modal couplings.
- Miniaturization issues.
- Power handling capability.
- Filter design using signal interference technique.
- Measurement issues.

Laboratory:

- Coupling matrix using MATLAB.
- Extraction of different quality factors.
- Design and implementation of different filters.
- Measurement.

Data Intelligence and Computation

Organized by

CCE, NIT Warangal & Department of Master of Computer Application,
Regent Education and Research Foundation Group of Institutions, Barrackpore

March 22 - 26, 2022

2:00 PM to 5:00 PM

About the NIT Warangal:

National Institute of Technology, Warangal is the first among 17 RECs setup as joint venture of the Government of India and the state government. Over the years, the college has established itself as a premier Institute imparting technical education of a very high standard leading to the B. Tech degrees in various branches of engineering, M. Tech, and Ph. D programs in various specializations. All B. Tech and M. Tech programmes of NIT Warangal are NBA accredited.

Centre for Continuing Education (CCE) NIT Warangal:

This CCE of NIT Warangal organizes Continuing Education Programmes and Workshops in the frontier areas of Science, Engineering, Technology, Management, Humanities, Social Science and Socially relevant themes on self-financing basis in three different modes: (i) At NIT Warangal by NIT Warangal (ii) At NIT Warangal in collaboration with other organizations (iii) By NIT Warangal Faculty at the Host Organization/Institute.

Regent Education and Research Foundation, Barrackpore (RERF-B)

Regent Education and Research Foundation (RERF) Barrackpore, a NAAC accredited leading Engineering and Technology institute approved by AICTE and affiliated by Maulana Abul Kalam Azad University of Technology (MAKAUT) at Barrackpore the historical and industrial city of West Bengal. The institute was founded in 2009 by Regent Educational Trust with a vision to promote the technological and professional education of highest standards and to encourage research and training activities so that the students, conferred with the degree can not only meet the professional challenges but also all the challenges life has to offer. In this era of economic liberalization, globalization and technological super advancements our motto is to put quality education in the light of Swamiji's vision of spreading education throughout the society.

About the Course:

In the latest technology trend, organizations are looking for the intelligent automation tools to solve business challenges, increase productivity, efficiency, and accuracy which results in a benefit to the organization. The program is based on the assumption that we live in a world where the amount of data grows rapidly, but where the data also exposes more information. To keep up with this development, it is therefore necessary to equip ourselves with tools and techniques that dramatically speed up our interaction with increasingly complex data sources. The course will concentrate to learn about Data Intelligence, new AI/data science platform for managing complex data landscapes, building scalable, ML application Material Science, Geo Image Senescing and provisioning the entire data science process. The course is aimed mainly at data Intelligence enthusiasts but is also suitable for anyone interested in data Intelligence and innovation, focusing on the specific product capabilities for developing a data Intelligence scenario in an enterprise landscape.

Different Government/non-government organizations, educational institutes, and business entities around the globe persistently carryout experimentations, surveys, and analyses on numerous issues. As a result, a huge amount of intellectual resources (data, information, and/or knowledge) has been accumulated and stored in numerical, textual, graphical, audio, and video forms. In general, when we link and access such intellectual resources through the Internet, we call it "big data." The fact of the matter is that big data will serve as a source of decision-relevant information while making both formal and informal decisions.

To make participants aware that these data Intelligence need to be introduced in all branches of engineering to increase employable and also empower participants in these technologies by providing opportunity of learning.

ABOUT THE INSTITUTE

Established in the year of 2000 with only four engineering disciplines, Dr. B. C. Roy Engineering College is marching ahead with a great stride. With the addition of two new branches of studies, viz. CSD and AI & ML, BCREC now offers B. Tech in eight branches, M. Tech with four specializations, MBA and MCA. The college is the proud recipient of NBA accreditations for 8 disciplines and NAAC accreditation.

ABOUT THE DEPARTMENT

The department of Civil Engineering was established in 2010 and offers 04 (four) years B.tech program. The backbone of the department is the team of well qualified, experienced and committed faculty members who contribute to the development of academic expertise and interpersonal skills to the students. The department aims to achieve academic excellence.

AICTE-IDEA Lab is the new feather in the cap of Dr. B. C. Roy Engineering College. The College achieved the distinction of being the NPTEL Local Chapter of IIT-Kharagpur and Nodal Center For Spoken Tutorial of IIT-Bombay, and is facilitating as the Nodal Center of Maulana Abul Kalam Azad University of Technology for South Bengal. Texas Innovation Lab is another great research centre of this institution.

by focusing on the key activities like providing quality education to students, enhancing their learning skills and giving them training to acquire the professional skills required for their career with an objective of making them committed professionals providing depth of knowledge as well as professional training to minimise the industry-institute gaps.

About the Faculty Development Program

The primary objective of ADCEP-2022 is to bring all the working professionals together from academic institutes and industries to enhance their knowledge on the dynamic behaviour of structures, soil and substructures. This FDP is specially designed to cover the recent trends of dynamics in civil engineering problems. Participation in this FDP will be beneficial for the academicians from different graduation and diploma colleges to fulfill the AICTE mandated norms.

Course Coverage

- ✓ Introduction to Earthquake Engineering
- ✓ Earthquake and Building Dynamics
- ✓ Dynamic behaviour of Masonry Building
- ✓ Dynamics of Soil Properties
- ✓ Liquefaction of Soil
- ✓ Earthquake Resistant Design of Structure
- ✓ Dynamics Analysis of Complex Structures
- ✓ Artificial Intelligent in Dynamic Soil Property Prediction
- ✓ Dynamic Analysis of Soil with Software Application

Advancements in Next Generation
Computing and Communications in the IoT
organized by
INSTITUTE OF ENGINEERING & MANAGEMENT
 Department of Computer Application & Science
Technically Sponsored by
Computer Society of India(CSI), Kolkata Chapter

DATES: 19TH JUNE - 23TH JUNE 2023

OBJECTIVE

The FDP (Faculty Development Program) on "Advancements in Next Generation Computing and Communications in the IoT Age" would be focused on exploring the latest developments and trends in computing and communications technologies, specifically in the context of the Internet of Things (IoT). The IoT refers to the interconnection of various devices, objects, and systems, enabling them to communicate and exchange data.

E-CERTIFICATE

Certificate will be issued only among the participants attending all the sessions.

ABOUT IEM

The IEM group is an acclaimed educational group amongst the industry-centred academic training organisations of today. IEM has been ranked 'A' Category by NAAC (National Assessment and Accreditation Council). IEM has set sublime standards in addressing the technical and managerial resource shortage in the new era of dynamic globalisation. The IEM group has risen to fame for its strong foundation in teaching and R&D in multi-faceted areas. It aims to serve the future generation as well as the Nation through its commitment towards self-sufficiency and unmatched excellence. Since its inception, the IEM group has surpassed innumerable benchmarks of achievements and accreditations. Today IEM flaunts a colossal network of expansive operations led by an awe-inspiring student force who are the torchbearers of a better tomorrow. The IEM Group has opened up the doors for young minds who dare to dream. It encourages the spirit of free enquiry and imagination. In this temple of learning, dreams take shape. The educational group attempts to inculcate the sense of human values and discipline in students to make them respectable human beings. It encourages learners to learn, to realize their potential and imbibe the best practices.

TOPICS COVERED

Here's an outline of what the FDP might cover:

Introduction to IoT: Provide an overview of the Internet of Things, its applications, and its impact on various industries.

Next Generation Computing Technologies: Explore emerging computing technologies that are driving advancements in IoT, such as edge computing, fog computing, and quantum computing. Discuss their capabilities, benefits, and challenges.

Communication Protocols: Discuss the communication protocols used in IoT systems, including MQTT, CoAP, and HTTP. Explore their features, suitability for different applications, and security considerations.

Wireless Technologies: Cover wireless communication technologies relevant to IoT, such as Wi-Fi, Bluetooth, Zigbee, and LoRaWAN. Discuss their characteristics, range, power requirements, and deployment considerations.

Data Analytics and Machine Learning in IoT: Explore the role of data analytics and machine learning in extracting insights and making predictions from IoT data. Discuss techniques for data preprocessing, feature extraction, and modeling in the context of IoT applications.

Security and Privacy in IoT: Highlight the security challenges in IoT deployments and discuss strategies for securing IoT devices, networks, and data. Cover topics like authentication, encryption, access control, and privacy considerations.

Cloud Computing and IoT: Explore the integration of cloud computing with IoT systems and discuss the benefits and challenges. Cover topics such as cloud-based IoT platforms, scalability, data storage, and real-time processing.

Edge Computing and IoT: Discuss the concept of edge computing and its relevance to IoT applications. Explain how edge computing can address latency, bandwidth, and privacy concerns by processing data closer to the source.

Case Studies and Use Cases: Present real-world case studies and use cases showcasing the application of next-generation computing and communication technologies in different IoT domains, such as smart cities, healthcare, agriculture, and industrial automation.

About Faculty Development Program:

Civil Engineering is the major branch of engineering which deals with the Planning, Design, Construction, Earthquake analysis, Maintenance etc. of the structures. This short term training program is organized for following purposes:

To provide a forum for disseminations of advanced knowledge and information on concrete technology and sustainable concrete practices for Scholars, Academicians, Researchers and Engineers.

To provide an arena for the sustainable construction practices through advanced concrete technology for fulfilling the present need to grow this tribal region.

To act as a place for exchanges of new knowledge and experience, creations of cooperation networks in research among academicians, researchers and engineers for sustainable development of constructional practices in advance concrete technology.

To provide the ample opportunity to participants in this one week faculty development program in tribal area. The program is useful to civil engineers, faculty members, research scholars, post graduate students, industrialist and consultants.

Proposed Topics to be Covered:

1. Sustainable Construction Practices: World Scenario
2. Advancement in Concrete Technology
3. Advancement in Admixtures and Curing Compounds
4. Advancement in Supplementing Cement Materials (SCMs)
5. Industrial Scenario for Restrengthening of Structures
6. Recent Trends in Special concrete: Green concrete
7. Sustainable Concrete Practices - Geo Polymer Concrete
8. Use of NDTs in concrete
9. Recent Development on Reactor Powder Concrete
10. Advancement in Light Weight concrete
11. Fiber Reinforced Polymer used as Retrofitting Technique.
12. Health Assessment in Constructional practices
13. Sustainable Concrete Practices - Recycled Concrete

Eligibility Criteria:

Participation in this FDP is open to the post graduate students, research scholars, and faculty members of civil and structural engineering. It is also open to the

Mathematicians, Scientists and Engineers who are working in the R&D organizations, industry and who wish to gain a basic understanding of the concepts involved in civil and structural engineering.

GENERAL INFORMATION

The Institute and Dahod City

The institute, one of the pioneer engineering institutions of the state, was established in 2004. At present, there are five undergraduate courses and two postgraduate courses in mechanical and applied mechanics in the institute. The whole campus has connectivity of the internet with fiber optical network and Wi-Fi.

This is the major engineering institute which is located at Tribal Area Dahod, about 150 kms West of Vadodara and is on the main railway line between Delhi and Mumbai. The institute is about 1 km away from Dahod railway station and Dahod bus station.

About the Department

The department Civil and Applied mechanics started with establishment of institute. Most of all the equipment and instrument are required for performance of

test relevant to civil and applied mechanics are available along with the computer lab with appropriate software and internet connectivity. The department has qualified and dedicated faculty members with the specialization in various areas like concrete technology, structure and earthquake engineering, soil mechanics, environment engineering, water resource management and transportation etc.

Registration: Free

This online Faculty development program is funded by AICTE Training and Learning Academy. So, there is no registration fee.

Resource Person:

Experts will be from reputed institute and industries.

Other Important Instructions for Participants:

The workshop will be conducted through online mode.

Participants willing to participate in this online workshop should have the provision of laptop/desktop/smart phone with good quality internet connections and other audiovisual facilities, as required for online training.

Participants interested to attend this program should register online through

<https://atalacademy.aicte-india.org/login>.

Seats are limited and the participants are selected by organizers on first come first serve basis.

On completion of the course an objective/quiz based assessment of all participants will be done.

Those who have an attendance of minimum 80% and score more than 60% in the test will be issued a digital certificate by the AICTE Training and Learning Academy.

Last date for registration form is 17th September, 2020 through <https://atalacademy.aicte-india.org/login>.

Applicants will be informed about their selection by 18th September 2020 through e-mail.

Faculty Development Programme (FDP) Report 2018-2023

The institute is devoted to endow the students with quality education along with moral attributes and prepare them to either become employable or to generate employments. To accomplish this, the quality of faculty members plays an essential role. In this regard, the Institute has taken initiatives to conduct faculty development training programmes to improve the teaching skill which is necessary in contemporary education. Moreover, the institute provides opportunity to the faculties to participate in some other faculty developmental or training programmes organized by eminent institutes of the country.

In the past five years, faculties have participated in various online/ face-to-face Professional Development Programmes, Orientation / Induction Programmes, Refresher Course, Short Term Training Program (STTP) etc. according on their needs.

FDP organized by RERFGI

- **FDP on Digital Literacy (2018-2019 session)**

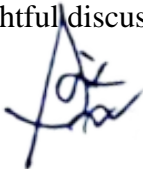

A seven- day FDP on Digital Literacy was organized and hosted by RERFGI. Distinguished speakers from SVIMS and Siliguri B. Ed. College presented their talk.

Dr. Mahuya Das, Principal, RERFGI delivered a cordial welcoming speech. The program was hosted by Mrs. Himeli Chakraborty, Asstt. Prof., RERFGI. The experts (Dr. Deepanwita Ghosh and Dr. Nityagopal Mondal) emphasized on the significance of digital literacy in the twenty-first century in order to build a progressive and equitable society. Every day, a question-and-answer session was arranged with the speakers at the end of the sessions. Dr. Rajdeep Chakravarty, Professor, RERFGI gave thank-you speech to conclude the programme.

- **FDP on Professional Ethics (2019-2020 session)**

RERFGI planned a seven-day FDP on Professional Ethics in online mode. The main objective of this programme was to guide the faculty members and other staffs about appropriate conduct.

The welcome speech was given by Dr. Mahuya Das, Principal of RERFGI. Dr. Biswajit Sen, Associate Prof., Vidyasagar Teachers' Training College was invited as the resource person. The speaker emphasized on the importance of teachers leading by example and imparting important life skills to their students promoting honesty, security and acceptance in the classrooms. In his closing remarks, Dr. Rajdeep Chakravarty, Professor of RERFGI, thanked the presenters for their insightful comments and thoughtful discussions.
